Profile

As a passionate Computer Engineering Student at the University of Lagos, I am proficient in frontend web development with a strong ability to learn and grasp new concepts quickly. I am eager to leverage my skills and contribute to a dynamic team to help a company achieve its goals.

Education

Computer Engineering, University of Lagos.
2024 – Present

Technical Skills

Languages: JavaScript, HTML, CSS, SCSS.

Frontend Frameworks: React, Bootstrap, Tailwind CSS, Bulma.

Tools & Platforms: Git, GitHub, VS Code, Linux.

Other Skills: Learning.

Projects (from frontend mentor)

Countries App with theme switcher

I developed a React app to get information about the various countries of the world.

Interactive Coments Section

A React app that models how comments sections are built in some robust applications.

Multi-Step Form

An interactive React app related to forms. Seamless, neat and polished with nice transitions.

IP Address Tracker

A JavaScript app to get information about any domain in the world.
