EDUCATION

University of Lagos | Lagos, Nigeria - B.Sc. Computer Engineering (in view) - (Oct 2029)
Relevant Coursework: Computer Programming, Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Software Engineering.
CGPA: 4.88/5.00, First Class.

ACADEMIC HONOURS AND SCHOLARSHIPS

- **GIAMB Cash Award For Remarkable Admission Achievements -** Great Ife Alumni Modakeke Branch | Oct 2025
  Awarded for outstanding academic performance and exceptional admission achievements amongst 1000+ students.
- **Best Student in Introduction to Programming Languages (C Programming) |** Jan 2025
- **Best WASSCE Student in Modakeke -** The Late Honourable Odelola Foundation | Dec 2024
  Achieved 8 distinctions, ranking 1st among 2000+ candidates.
- **Full Tuition Scholarship -** Emily Mojirola and Thomas Adesiyan Ojo Foundation | Dec 2024
- **1st Position – Nigerian Mathematics Olympiad, Round One -** National Mathematical Center, Abuja | Mar 2024

EXPERIENCE

Frontend Developer | EsusuAfrica | Sept 2026 - Present

- Architectured and shipped a production-grade admin platform (100+ TypeScript modules across 10+ feature domains) to manage the full cooperative lifecycle — onboarding, subscriptions, savings/loan products, and payments — from a single control plane.
- Built a secure authentication layer with email-based 2FA, httpOnly session cookies, and server-side route protection, eliminating unauthorized dashboard access across all protected routes.
- Implemented end-to-end type-safe forms with Zod + React Hook Form across 19+ workflows, surfacing server validation errors inline and cutting invalid submissions reaching the API.
- Leveraged Next.js Server Components and Server Actions to keep data fetching server-side, reducing client bundle and removing exposed API tokens from the browser.
- Delivered responsive, searchable, paginated data tables (TanStack Table) for cooperatives and subscription plans, enabling super-admins to manage tenant records efficiently

Frontend Developer | BamBam Automation Limited | Sept 2026 - Present

Frontend Developer Intern (Volunteer) | Ibadan Digital Academy | Feb 2026 - March 2026

Frontend Developer Intern (Volunteer) | Ascent Tech Hub Africa. | Dec 2025 - March 2026

- Contributed to Ascent Finance Suite, a finance management software, by implementing dashboard designs and logic, building components, and integrating APIs

PROJECTS

Maglo – Finance Management Dashboard | Next.js, TypeScript, Tailwind CSS, Appwrite, Zustand, Recharts | Nov 2025

- Built a full-stack finance management dashboard with authentication, protected application flows, and persistent client-side state.
- Implemented CRUD workflows and interactive financial data visualizations using Recharts.
- Designed reusable dashboard components and responsive interfaces with Tailwind CSS.
- Integrated Appwrite for authentication and backend services
- **Result**: Passed technical evaluation with commendation for problem-solving and attention to detail.

OPEN SOURCE AND COMPETITIONS

Hacktoberfest Open Source Challenge 3.0. First Place winner. Microsoft Learn Student Ambassadors × GitHub Campus Experts | Oct 2025

- Placed **1st** in the open-source challenge after contributing 14 merged pull requests.
- Contributed across frontend and backend components of Naija Nutri Hub.
- Worked with Next.js, TypeScript, Tailwind CSS, and ShadCN to implement features and improve application functionality.
- Continued contributing to the project after the competition at the invitation of the maintainers.
